

QUICK USER GUIDE

From sign-in to an exported analysis clip in seven simple steps

1-PAGE STARTER

PRACTICAL EXAMPLES FROM THE PLATFORM

1

SIGN UP OR SIGN IN

Choose Create account for a new subscription, or Sign in to reopen your existing workspace.

2

UPLOAD YOUR MATCH

Open Match library, select Upload match film, choose an MP4, MOV or MKV file, then allow the upload to finish.

3

CREATE YOUR FOLDERS

Select the + beside Clip folders, name the folder, then drag folders to reorder or drop one inside another.

4

CUT AND SAVE CLIPS

Press Record or R at the start. Press Stop or Space at the end. Name the clip, choose its folder and save.

5

ADD PAUSES AND DRAWINGS

Open Draw, add a Pause frame, then choose arrows, zones, spotlight, labels or player tools and draw on the image.

6

REVIEW AND ORGANISE

Click a saved clip to open its clip-only timeline. Trim the in/out handles and drag the clip into the correct folder.

7

EXPORT THE VIDEO

Select Export MP4 for the open clip. Folder exports can be downloaded as separate clips or one combined analysis video.
